

## Locating the Serial Number on Phantom Cameras

Each Phantom camera and certain accessories have a unique serial number which will be needed for registering your product, for getting technical support and for requesting software and firmware updates on the Vision Research website. This document is a guide to help you find that information, based on the model and body style of your Phantom camera.

### 1) How to decipher the serial number label

Phantom serial number labels usually have the same information, though it may appear in a slightly different format depending on the camera model.

### 2) Where to physically locate the serial number label on your Phantom camera

The location will also vary depending on camera model. Some common examples are pictured here.
